

What is Assura-FSTM ?

Assura-FSTM is an **innovative yarn** which features a **distinct Fire-Resistant Property** that makes it **suitable** for a **wide range** of applications.

Assura-FSTM is manufactured from a modified polymer with a **flame resistant compound firmly anchored** in its **molecular structure**.

Think Assura-FSTM yarns, for a professionally designed **Fire Shield for life!**

Why Assura-FSTM ?

Assura-FSTM yarns are **inherently flame resistant** and **do not require** any **additional treatment** for **fire protection**.

Products made with Assura-FSTM yarns are **durable** even after **extensive use**.

BENEFITS TO THE CONSUMER

**Inherently
Fire Resistant**

Eco-Friendly

**Excellent
Performance
and Durability**

**Long Lasting
Appearance
Retention**

BENEFITS TO THE MANUFACTURER

**Inherently
Fire Resistant**

**Suitable for
Industrial
Applications**

**Excellent
Performance**

**No Post
Processing
Required**

**No Distortion
Post Wash**

Easy to Dye
